

MINISTRY OF ECONOMY, PLANNING AND DEVELOPMENT

Macro-Economic Framework 2020-2024

We hereby inform that the Inter-institutional Committee for the elaboration of the macroeconomic framework, made up of the Ministry of Economy, Planning and Development, the Ministry of Finance and the Central Bank of the Dominican Republic, in its meeting on the 30th of March 2020, has considered that, given the uncertainty caused by the COVID-19 pandemic, at the moment there is not enough and reliable information, both national and international, for which there are no conditions to prepare projections that allow making a financial and budgetary framework with the necessary levels of certainty and rigor. This decision is similar to that adopted by official institutions of other countries that also make such economic projections.

In this sense, the technicians will continue in permanent session, monitoring the status of the economy and evaluating the development of internal and external events, in order to update the macroeconomic framework in the near future.
