The Dominican Republic

Offers to Purchase for Cash the Outstanding Notes Listed Below (the "Offer")

The Dominican Republic (the "Republic," "we," "us" or "our") is offering to purchase for cash from each holder or beneficial owner (each, a "Holder" and, collectively, the "Holders") outstanding DOP-denominated, Dominican law-governed notes of each of the series set forth in the table below (collectively, the "Existing Local Notes" and each a "series" of Existing Local Notes), including Existing Local Notes in the form of Global Depository Notes (the "Existing GDNs" and, together with the Existing Local Notes, the "Existing Notes," and each, a "series" of Existing GDNs or Existing Notes, as applicable) issued by Citibank, N.A., as GDN depository (the "GDN Depository"), upon the terms and subject to the conditions set forth in this offer document (this "Offer Document"). The Republic will determine in its sole discretion the maximum amount to be paid by the Republic for the outstanding principal amount of Existing Notes validly tendered and accepted for purchase by the Republic pursuant to the Offer, not including interest accrued and unpaid thereon (the "Maximum Purchase Price").

The Offer is not conditioned upon any minimum participation of the Existing Notes, but it is conditioned, among other things, on the concurrent (or earlier) closing of an issuance by the Republic of a new series of DOP-denominated, Dominican law-governed notes (the "New Local Notes"), in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic in its sole discretion (the "New Notes Offering"). The New Notes Offering will be made solely by means of an offering memorandum relating to the offering of the New Local Notes (the "New Local Notes Offering Memorandum"), and this Offer Document does not constitute an offer to sell or the solicitation of an offer to buy any New Local Notes. The Republic reserves the right, in its sole discretion, not to accept any valid orders to tender Existing Notes in accordance with the terms and conditions of the Offer ("Tenders"), to modify the fixed price per original DOP1,000 principal amount indicated in the rightmost column in the table below (the "Purchase Price") for any or all series of Existing Notes, or to terminate the Offer for any reason.

The Purchase Price and the Accrued Interest (as defined herein) for the applicable series of Existing GDNs will be payable in U.S. dollars by converting the applicable DOP amounts to U.S. dollars based on the Representative Market Rate at the Expiration Time (as defined under "The Offer—Purchase Price").

If the Purchase Price for all validly tendered Existing Notes (the "Tendered Aggregate Purchase Price") would exceed the Maximum Purchase Price, then the Republic will, in its sole discretion, select one or more series of Existing Notes to be prorated on the basis of the same or different proration factors. See "The Offer—Maximum Purchase Price; Proration."

Holders of Existing Local Notes or Existing GDNs may contact Citigroup Global Markets Inc. (“Citi”) and J.P. Morgan Securities LLC (“J.P. Morgan”) and, together with Citi in such capacity, the “Dealer Managers”) at the respective telephone numbers provided on the back cover of this Offer Document for information concerning the Offer.

Tendering Holders will not be obligated to pay the fees of the Dealer Managers and the Tender and Information Agent; however, such Holders may be required to pay a fee or commission to their broker or intermediary through whom their Existing Notes are tendered. The Republic will pay or cause to be paid all transfer taxes with respect to the purchase of any Existing Notes.

The Offer is not conditioned upon any minimum participation by the Holders of Existing Notes, but is conditioned on the satisfaction or waiver by the Republic of the conditions described under “*The Offer—Conditions to the Offer*,” including the closing of the New Notes Offering. The Republic may, at its sole discretion, extend, re-open, amend or waive any condition of or terminate the Offer at any time. In the event the Offer is withdrawn or otherwise not completed, or the conditions thereto are not satisfied or waived by the Republic, the applicable Purchase Price and Accrued Interest will not be paid or become payable to Holders who have validly tendered their Existing Notes in connection with such Offer and the relevant Existing Notes will be returned to the tendering Holder.

Important Information for Tendering Existing Notes

Beneficial owners whose Existing Notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee must contact such broker, dealer, commercial bank, trust company or other nominee if they wish to tender Existing Notes. **Beneficial owners should be aware that their broker, dealer, commercial bank, trust company or other nominee may establish its own earlier deadline for participation in the Offer. Accordingly, beneficial owners wishing to participate in the Offer should contact their broker, dealer, commercial bank, trust company or other nominee as soon as possible in order to determine the time by which such owner must take action in order to so participate.**

Holders wishing to tender Existing Local Notes pursuant to the Offer should inform CEVALDOM of their intention to tender either by (a) inputting its tendered Existing Local Notes directly through CEVALDOM's book-entry system or (ii) executing the instruction form attached hereto as Annex A (the "Instruction Form") and sending it by email to CEVALDOM at the following email address: servicioslegales@cevaldom.com. The Republic expects that CEVALDOM will authorize participants that hold Existing Local Notes on behalf of beneficial owners of Existing Local Notes held through CEVALDOM to tender their Existing Local Notes as if they were Holders.

Holders wishing to tender Existing GDNs pursuant to the Offer should transmit an Agent's Message (as defined herein) together with the confirmation of the transfer of such Existing GDNs into the account of the Tender and Information Agent with DTC pursuant to the procedures for book-entry transfer set forth herein. The Republic expects that DTC will authorize participants that hold Existing GDNs on behalf of beneficial owners of Existing GDNs held through DTC to tender their Existing GDNs as if they were Holders. To effect a Tender, DTC participants may transmit their acceptance to DTC through the DTC Automated Tender Offer Program ("ATOP"), for which the Offer will be eligible, and follow the procedures for book-entry transfer set forth in "*The Offer—Tender Procedures.*"

A beneficial owner who holds Existing GDNs through Euroclear or Clearstream and wishes to tender its Existing GDNs must arrange for a direct participant in Euroclear or Clearstream to deliver a valid electronic acceptance instruction (an "Electronic Acceptance Instruction"), which includes the proper Note Instructions (as defined herein), to Euroclear or Clearstream, as applicable. Only a direct participant in Euroclear or Clearstream may submit an Electronic Acceptance Instruction to Euroclear or Clearstream.

The Republic has not provided any guaranteed delivery provisions in connection with the Offer. You must tender your Existing Notes in accordance with the procedures set forth in "*The Offer—Tender Procedures.*"

Jurisdiction; Enforcement of Judgments

The Republic is a sovereign state. Consequently, it may be difficult for you to obtain or enforce judgments of courts in the United States or elsewhere against the Republic with respect to actions brought against it under U.S. federal securities laws or any state securities laws.

The Republic has not consented to service or waived sovereign immunity with respect to actions brought against it under U.S. federal securities laws or any state securities laws. In the absence of a waiver of immunity by the Republic with respect to such actions, it would not be possible to obtain a judgment in such an action brought in a U.S. court against the Republic unless such court were to determine that the Republic is not entitled under the U.S. Foreign Sovereign Immunities Act of 1976 to sovereign immunity with respect to such action. Further, even if a U.S. judgment could be obtained in any such action under the U.S. Foreign Sovereign Immunities Act of 1976, it may not be possible to enforce in the Republic a judgment based on such a U.S. judgment. Execution upon property of the Republic located in the United States to enforce a U.S. judgment may not be possible except under the limited circumstances specified in the U.S. Foreign Sovereign Immunities Act of 1976.

Republic will either accept or reject all of such Holder's validly tendered Existing Notes of such series.

See "*The Offer—Maximum Purchase Price; Proration.*"

Source of Funds..... The Republic expects to fund the purchase of the Existing Notes using all or a portion of the proceeds from the sale of the New Local Notes in the New Notes Offering. The Offer is subject to a number of conditions, including that the Republic concurrently (or earlier) consummate the New Notes Offering, in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic in its sole discretion.

The New Notes Offering will be made solely by means of the New Local Notes Offering Memorandum, and this Offer Document does not constitute an offer to sell or the solicitation of an order to buy the New Local Notes. You may not participate in the New Notes Offering unless you have received and reviewed the New Local Notes Offering Memorandum, and not in reliance on, or on the basis of, this Offer Document. The New Local Notes will be offered only to qualified institutional buyers in the United States in reliance on Rule 144A and outside the United States in reliance on Regulation S under the Securities Act, and will not be registered under the Securities Act or the securities laws of any other jurisdiction.

Purchase Price..... Upon the terms and subject to the conditions set forth in this Offer Document, Holders who validly tender Existing Notes at or prior to the Expiration Time and whose Existing Notes are accepted for purchase by us, will receive the Purchase Price for such Existing Notes.

The Purchase Price for each series of Existing Notes is specified in the table in the cover page.

The Purchase Price for each series of Existing GDNs will be payable in U.S. dollars by converting the applicable DOP amounts to U.S. dollars based on the Representative Market Rate at the Expiration Time.

The Purchase Price will be rounded to the nearest cent (DOP0.01 or US\$0.01, as applicable).

Accrued Interest..... Holders whose Existing Notes are accepted for purchase by the Republic will receive accrued and unpaid interest with respect to their tendered Existing Notes from, and including, the last applicable interest payment date for such Existing Notes to, but excluding, the Settlement Date ("Accrued Interest").

The Accrued Interest on each series of Existing GDNs will be payable in U.S. dollars by converting the applicable DOP amounts to U.S. dollars based on the Representative Market Rate at the Expiration Time.

Tender Period..... The Offer will commence on Wednesday, May 26, 2021, and unless extended or earlier terminated by the Republic in its sole discretion, the Offer and withdrawal rights will expire at 5:00 p.m. (New York City time) on Monday, June 7, 2021.

Tenders for Existing GDNs must be submitted through DTC, Euroclear or Clearstream.</p> <p>Tenders must be submitted in the applicable Permitted Tender Amounts set forth below under “—Permitted Tender Amounts.” Failure to deliver your Existing Notes on time may result in the cancellation of your Tender.</p> <p>If you are a beneficial owner whose Existing Notes are held by a broker, dealer, commercial bank, trust company or other nominee (each, a “<u>Nominee</u>”) and you desire to tender the Existing Notes in the Tender Offer, you must contact your Nominee and instruct such Nominee, as holder of the Existing Notes, to tender the Existing Notes on your behalf.</p> <p>Accordingly, beneficial owners wishing to participate in the Offer are advised to contact their Nominee as soon as possible in order to determine the deadlines by which such Nominee would require receipt of instructions from you to participate in the Offer in accordance with the terms and conditions of the Offer described in this Offer Document in order to meet the deadlines set out in this Offer Document. Irrevocability; Withdrawal Rights	<p>The Offer will become irrevocable at the Expiration Time. However, the Offer may be withdrawn or revised prior to the Expiration Time in accordance with the procedures described under “<i>The Offer—Irrevocability; Withdrawal Rights.</i>”</p>
Announcement of Results; Announcement of Accepted Tenders	<p>At or about 9:00 a.m. (New York City time) on Tuesday, June 8, 2021, subject to change without notice, the Republic expects to announce the aggregate principal amount of Tenders of each series</p>

of Existing Notes that has been received on or prior to the Expiration Time.

In addition, at or about 9:00 a.m. (New York City time) on Wednesday, June 9, 2021, subject to change without notice, the Republic expects to announce (i) the Maximum Purchase Price; (ii) the Tendered Aggregate Purchase Price; (iii) the aggregate principal amount of Tenders of each series of Existing Notes that has been accepted; and (iv) any proration of Tenders of any series of Existing Notes. Such announcement may be conditioned on the consummation of the New Notes Offering, in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic in its sole discretion.

Acceptance of Tenders..... The Republic will accept for purchase valid Tenders of Existing Notes of each series in such principal amounts as the Republic shall determine (subject to the terms and conditions of the Offer, including potential proration of any series of Existing Notes). **Tenders that are accepted will be settled by the Republic on the Settlement Date, subject to the terms and conditions of the Offer.** The Republic reserves the right, in its sole discretion, not to accept any Tenders for any reason.

Permitted Tender Amounts Tenders must be in Permitted Tender Amounts. The Permitted Tender Amount for each series of Existing Local Notes is DOP100,000. The Permitted Tender Amount for each series of Existing GDNs is equal to one GDN. Each Existing GDN represents DOP100,000 nominal amount of the corresponding Existing Local Notes.

To avoid acceptance and purchases of Existing Notes in principal amounts other than Permitted Tender Amounts and to ensure that Existing Notes subject to proration are returned in Permitted Tender Amounts, if necessary, appropriate adjustments will be made downward to the nearest Permitted Tender Amount, with respect to each Tender accepted for purchase. Holders who tender less than all of their Existing Notes, must continue to hold Existing Notes in at least the applicable Permitted Tender Amount.

Settlement Subject to the concurrent (or earlier) closing of the New Notes Offering and the other conditions set forth herein, the Republic will purchase validly tendered and accepted Existing Notes in such amounts as previously announced by the Republic.

Settlement of tenders with Holders of Existing Local Notes will be in pesos.

Settlement of tenders with Holders of Existing GDNs will be in U.S. dollars.

Liquidity Following settlement of the Offer, any series of Existing Notes accepted by the Republic will have reduced liquidity, which may adversely affect the trading price of the Existing Notes of such series.

Conditions to the Offer..... The Republic reserves the right, in its sole discretion, not to accept any Tenders for any reason. The Offer is conditioned upon the concurrent (or earlier) closing of the New Notes Offering, including in an aggregate principal amount, with pricing and on

terms and conditions acceptable to the Republic. In addition, notwithstanding any other provisions of the Offer, the Offer is conditioned upon there not having been threatened, instituted or pending any action or proceeding before any court or governmental, regulatory or administrative body that (1) makes or seeks to make illegal the purchase of Existing Notes pursuant to such Offer; (2) would or might result in a delay in, or restrict, the ability of the Republic to purchase the Existing Notes or issue the New Local Notes; or (3) imposes or seeks to impose limitations on the ability of the Republic to issue and/or price the New Local Notes in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic. Each of the foregoing conditions is for the sole benefit of the Republic and may only be satisfied or waived by the Republic, in whole or in part, at any time and from time to time, in its sole discretion. Any determination by the Republic concerning the conditions set forth above (including whether or not any such condition has been satisfied or waived, except as in the case of the termination of the dealer manager agreement relating to the Offer) will be final and binding upon all parties.

**Certain Deemed Representations,
Warranties and Undertakings**

If you tender Existing Notes pursuant to the terms of the Offer, you will be deemed to have made certain acknowledgments, representations, warranties and undertakings to the Republic, the Dealer Managers and the Tender and Information Agent. See “*Holder’s Representations, Warranties and Undertakings.*”

Taxation

See “*Taxation*” for important information regarding the possible tax consequences to holders who offer to tender Existing Notes. You are also urged to consult your own professional advisors regarding the possible tax consequences under the laws of jurisdictions that apply to you or to the tender of your Existing Notes.

Jurisdictions

The Offer is being made only in those jurisdictions where it is legal to do so.

Risk Factors

The Offer involves material risks. See “*Risk Factors.*”

Announcements

The Republic will make (or cause to be made) all announcements regarding the Offer by press release issued to news media in accordance with applicable law and by an announcement on the Offers Website. See “*The Offer—Communications.*”

Offers Website

The website <https://www.gbsc-usa.com/dominican/> is operated by the Tender and Information Agent for the purpose of the Offer.

RISK FACTORS

In deciding whether to participate in the Offer, each Holder should consider carefully, in addition to the other information contained in this Offer Document, the following:

Limited Trading Market; Increased Volatility. To the extent that Existing Notes of a series are purchased by the Republic pursuant to the Offer, the trading markets for the Existing Notes of such series that remain outstanding will become more limited. A debt security with a smaller outstanding principal amount available for trading (a smaller “float”) may command a lower price than would a comparable debt security with a greater float. Therefore, the market price for Existing Notes of a series not purchased may be affected adversely to the extent the amount of Existing Notes of such series purchased by the Republic reduces the float of the Existing Notes of such series. On the other hand, if the Republic’s purchase of the Existing Notes is viewed by the market as significant positive news due to its potential beneficial impact on the Republic’s debt maturity profile, the price of the Existing Notes could rise following completion of the Offer to a level greater than the applicable Purchase Price. The reduced float may also make the trading price of the Existing Notes more volatile. The extent of the public market for the Existing Notes following consummation of the Offer will depend upon the number of Holders that remain at such time, the interest in maintaining markets in the Existing Notes on the part of securities firms and other factors. There can be no assurance that any trading market will exist for the Existing Notes following the Offer.

Other Purchases or Redemption of Existing Notes. Whether or not the Offer is consummated, the Republic may acquire, from time to time following completion or cancellation of the Offer, Existing Notes other than pursuant to the Offer, including through open market purchases, privately negotiated transactions, Offer, exchange offers or otherwise (and may redeem or defease the Existing Notes in accordance with the terms and conditions of the Existing Notes), upon such terms and at such prices as they may determine, which may be more or less than the prices to be paid pursuant to the Offer and could be for cash or other consideration. The effect of any of these actions may directly or indirectly affect the price of any Existing Notes that remain outstanding after the consummation of the Offer.

Enforcement of Civil Liabilities. The Republic is a sovereign entity. Consequently, it may be difficult for you to obtain or enforce judgments of courts in New York or elsewhere against the Republic. See “*Certain Offer Matters—Jurisdiction; Enforcement of Judgments.*”

Holders are Responsible for Complying with the Procedures of the Offer. In order to be eligible to receive the Purchase Price and Accrued Interest for your Existing Notes, you will need to properly deliver such Existing Notes through the applicable clearing system (CEVALDOM, DTC, Euroclear or Clearstream) in accordance with the procedures and in the timeframe provided in this Offer Document. If you hold Existing Notes through a broker, it is your responsibility to ensure that your broker is aware of the times by which such clearing systems must receive your Existing Notes and the clearing systems’ restrictions. Failure to deliver Existing Notes on time may result in the cancellation of your tender. See “*The Offer—Tender Procedures.*”

Tenders of the Existing Notes, or Portions Thereof May be Rejected due to Proration. Tenders of the Existing Notes may be subject to proration, on the basis described under “*The Offer—Maximum Purchase Price; Proration.*” If the Tendered Aggregate Purchase Price would exceed the Maximum Purchase Price, then the Republic will, in its sole discretion, select one or more series of Existing Notes to be prorated on the basis of the same or different proration factors, so that the Tendered Aggregate Purchase Price accepted by the Republic equals or does not exceed the Maximum Purchase Price. Accordingly, Tenders of Existing Notes may be rejected in whole or in part as a result of proration.

The Offer May be Amended, Terminated or Delayed. The Offer is subject to the satisfaction of certain conditions, including the concurrent (or earlier) closing of the New Notes Offering, in an amount, with pricing, maturity and on terms and conditions acceptable to the Republic. There can be no assurance that such conditions will be met with respect to the Offer. See “*The Offer—Conditions to the Offer.*” Subject to applicable law and limitations described elsewhere in this Offer Document, the Republic may, in its sole discretion, extend, amend, waive any condition of or, upon failure of any condition described herein to be satisfied or waived, terminate the Offer at any time at or prior to the Expiration Time. The Republic also reserves the right, in its sole discretion, subject to applicable law, to terminate the Offer at any time at or prior to the Expiration Time. Accordingly, the Offer may not be completed or, if completed, it may not be completed on the schedule described in this Offer Document, and Holders participating in the Offer may have to wait longer than expected to receive their consideration, during which time such Holders will not be able to effect transfers of their Existing Notes tendered in the Offer.

There are limits on your ability to withdraw tendered Existing Notes. Tendered Existing Notes may be withdrawn at any time at or prior to the relevant Withdrawal Deadline, but not thereafter. Holders who tender their Existing Notes after the relevant Withdrawal Deadline may not withdraw their tendered Existing Notes.

Reinvestment Risk. Allocations in the New Notes Offering will be determined by the Republic in its sole discretion based on a number of factors, which may include an assessment of an investor's long-term interest in owning debt securities issued by the Republic, the size and timing of such investor's indication of interest in purchasing New Local Notes, and the aggregate principal amount of all Tenders in the Offer. The Republic is not obligated to consider participation in the Offer in making an allocation determination with respect to the New Local Notes with regard to any particular investor. If you tender Existing Notes in the Offer and submit an Allocation Priority Code expecting to receive New Local Notes, and, for any reason, you are not given an allocation of New Local Notes at the levels you subscribed for, or at all, your Tenders may still be accepted by the Republic. In such case, you may not be able to reinvest such cash at a comparable return for a similar level of risk.

THE OFFER

Introduction

The Republic is offering to purchase for cash the Existing Notes up to the Maximum Purchase Price, upon the terms and subject to the conditions set forth in this Offer Document. The Republic will determine in its sole discretion the Maximum Purchase Price to be paid for Existing Notes to be purchased in the Offer. In addition, the Republic reserves the right, in its sole discretion, to modify the Purchase Price for any or all series of Existing Notes, or to terminate the Offer for any reason.

Such purchases will be made in exchange for the Purchase Price and Accrued Interest, subject to the Maximum Purchase Price and proration procedures described herein. Under no circumstances will any interest be payable because of any delay in the transmission of funds to Holders by the Tender and Information Agent, CEVALDOM, DTC, Euroclear or Clearstream.

Existing Notes of a series may be subject to proration if the Tendered Aggregate Purchase Price for such series would cause the Maximum Purchase Price of such series to be exceeded. For a description of the applicable proration procedures, see “*The Offer—Maximum Purchase Price; Proration.*”

The Offer is made subject to the terms and conditions set forth in this Offer Document, including the concurrent (or earlier) closing of the New Notes Offering in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic. See “*—Conditions to the Offer.*” The Offer is not conditioned upon any minimum participation of Existing Notes.

The Offer will commence on Wednesday, May 26, 2021 and, unless extended by the Republic, the Offer and withdrawal rights will expire at 5:00 p.m. (New York City time) on Monday, June 7, 2021. No tenders will be valid if submitted after the Expiration Time. If a broker, dealer, commercial bank, trust company or other nominee holds your Existing Notes, such nominee may have an earlier deadline for accepting the Offer. You should promptly contact the broker, dealer, commercial bank, trust company or other nominee that holds your Existing Notes to determine its deadline. The Offer is open to all registered Holders of each applicable series of Existing Notes.

Source of Funds

The Republic expects to fund the purchase of the Existing Notes using all or a portion of the proceeds from the sale of the New Local Notes in the New Notes Offering. The Offer is subject to a number of conditions, including that the Republic concurrently (or earlier) consummate the New Notes Offering, in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic in its sole discretion.

The New Notes Offering will be made solely by means of the New Local Notes Offering Memorandum, and this Offer Document does not constitute an offer to sell or the solicitation of an order to buy the New Local Notes. You may not participate in the New Notes Offering unless you have received and reviewed the New Local Notes Offering Memorandum, and not in reliance on, or on the basis of, this Offer Document. The New Local Notes will be offered only to qualified institutional buyers in the United States in reliance on Rule 144A and outside the United States in reliance on Regulation S under the Securities Act, and will not be registered under the Securities Act or the securities laws of any other jurisdiction.

Purchase Price

Upon the terms and subject to the conditions set forth in this Offer Document, Holders who validly tender Existing Notes at or prior to the Expiration Time and whose Existing Notes are accepted for purchase by us, will receive the Purchase Price for such Existing Notes.

The Purchase Price applicable to each series of Existing Notes are specified in the table in the cover page.

The Purchase Price applicable for each series of Existing GDNs will be payable in U.S. dollars by converting the applicable DOP amounts to U.S. dollars based on the Representative Market Rate at the Expiration Time.

“**Representative Market Rate**” means the weighted average of the buy and sell foreign exchange rates for transactions completed on the previous business day by commercial banks and financial institutions in the Dominican

Republic, as calculated and published by the Central Bank of the Dominican Republic (*Banco Central de la República Dominicana*), and which is available at the Central Bank's website at https://cdn.bancentral.gov.do/documents/estadisticas/mercado-cambiario/documents/TASA_DOLAR_REFERENCIA_MC.xls?v=1617997209620 or any successor website established and maintained by the Central Bank for such purposes.

The Purchase Price will be rounded to the nearest cent (DOP0.01 or US\$0.01, as applicable). In the event of any dispute or controversy regarding any amount of Purchase Price for each Existing Note accepted pursuant to the Offer, the determination of the Republic will be conclusive and binding, absent manifest error.

Accrued Interest

Holders whose Existing Notes are accepted for purchase by the Republic will receive Accrued Interest.

The Accrued Interest on each series of Existing GDNs will be payable in U.S. dollars by converting the applicable DOP amounts to U.S. dollars based on the Representative Market Rate at the Expiration Time.

Under no circumstances will any interest be payable because of any delay in the transmission of funds to Holders by the Tender and Information Agent, CEVALDOM, DTC, Euroclear or Clearstream.

Announcement of Results; Announcement of Accepted Tenders

At or about 9:00 a.m. (New York City time) on Tuesday, June 8, 2021, subject to change without notice, the Republic expects to announce the aggregate principal amount of Tenders of each series of Existing Notes that has been received on or prior to the Expiration Time and the Representative Market Rate as of the Expiration Time.

In addition, at or about 9:00 a.m. (New York City time) on Wednesday, June 9, 2021, subject to change without notice, the Republic expects to announce (i) the Maximum Purchase Price; (ii) the Tendered Aggregate Purchase Price, (iii) the aggregate principal amount of Tenders of each series of Existing Notes that has been accepted; and (iv) any proration of Tenders of any series of Existing Notes. Such announcement may be conditioned on the consummation of the New Notes Offering, in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic in its sole discretion.

The Republic will make (or cause to be made) all announcements regarding the Offer by press release issued to news media in accordance with applicable law and by an announcement on the Offers Website.

No Recommendation

NONE OF THE REPUBLIC, THE DEALER MANAGERS, THE TENDER AND INFORMATION AGENT OR THE GDN DEPOSITARY MAKES ANY RECOMMENDATION THAT ANY HOLDER TENDER OR REFRAIN FROM TENDERING ALL OR ANY PORTION OF THE PRINCIPAL AMOUNT OF SUCH HOLDER'S EXISTING NOTES, AND NO ONE HAS BEEN AUTHORIZED BY ANY OF THEM TO MAKE SUCH A RECOMMENDATION. HOLDERS MUST MAKE THEIR OWN DECISIONS WHETHER TO TENDER EXISTING NOTES INTO THE OFFER, AND, IF SO, THE PRINCIPAL AMOUNT OF EXISTING NOTES TO TENDER.

This Offer Document is not an offer to sell or a solicitation of an offer to buy the New Local Notes.

Any investment decision to purchase any New Local Notes should be made solely on the basis of the information contained in the New Local Notes Offering Memorandum to be prepared in connection with the issue and offering of the New Local Notes, and no reliance is to be placed on any information other than that contained in the New Local Notes Offering Memorandum. Subject to compliance with all applicable securities laws and regulations, the New Local Notes Offering Memorandum will be available from the placement agents of the New Notes Offering on request.

The New Local Notes will not be registered under the Securities Act or the securities laws of any jurisdiction. Accordingly, the New Notes will be offered and sold only to qualified institutional buyers as defined in and in accordance with Rule 144A and outside the United States in accordance with Regulation S.

Duration of the Offer; Amendments

The Offer will commence on Wednesday, May 26, 2021, and unless extended or earlier terminated by the Republic in its sole discretion, the Offer and withdrawal rights will expire at 5:00 p.m. (New York City time) on Monday, June 7, 2021.

If the Offer is extended or earlier terminated, the term “Expiration Time” shall mean the time and date on which the affected Offer, as so extended or earlier terminated, shall expire.

Subject to applicable law, the Republic expressly reserves the right, in its sole discretion, to:

- modify the Maximum Purchase Price;
- extend or change the period of time during which the Offer shall remain open at any time and from time to time by giving oral or written notice of such extension or change to the Dealer Managers and the Tender and Information Agent;
- increase or decrease the Purchase Price for one or more series of Existing Notes;
- prospectively terminate or withdraw the Offer at any time and return any tendered Existing Notes;
- waive all unsatisfied conditions and accept for payment and purchase all Existing Notes that are validly tendered at or prior to the Expiration Time;
- extend the Offer and retain the Existing Notes that have been tendered during the period for which the Offer is extended; or
- amend the terms of the Offer in any other respect.

There can be no assurance that the Republic will exercise its right to extend, terminate or amend the Offer. The terms of any extension or an amendment of the terms or conditions of the Offer may vary from the original terms of such Offer depending on such factors as prevailing interest rates and the principal amount of Existing Notes previously tendered or otherwise purchased.

The failure by the Republic at any time to exercise any of the foregoing rights will not be deemed a waiver of any other right and each right will be deemed an ongoing right that may be asserted at any time and from time to time.

Any extension, termination or amendment of the Offer will be followed, as promptly as practicable, by public announcement thereof. The Republic shall communicate such public announcement by issuing a press release in accordance with applicable law and by an announcement on the Offers Website run by the Tender and Information Agent (<https://www.gbcs-usa.com/dominican/>). See “*The Offer—Communications.*”

Maximum Purchase Price; Proration

The amount of Existing Notes accepted for purchase in the Offer is subject to the Maximum Purchase Price (as described herein). Purchases of the Existing Notes may be prorated (as described herein).

Maximum Purchase Price

The Republic is offering to purchase for cash the Existing Notes up to the Maximum Purchase Price, upon the terms and subject to the conditions set forth in this Offer Document. The Maximum Purchase Price will be an amount determined by the Republic in its sole discretion. In addition, the Republic reserves the right, in its sole discretion, to modify the Purchase Price for any or all series of Existing Notes.

Proration

If the Tendered Aggregate Purchase Price would exceed the Maximum Purchase Price, then the Republic will, in its sole discretion, select one or more series of Existing Notes to be prorated on the basis of the same or different proration factors, so that the Tendered Aggregate Purchase Price accepted by the Republic equals or does not exceed the Maximum Purchase Price.

These proration procedures are subject to the Republic's right in its sole discretion not to accept any or certain Tenders for any reason.

Existing Local Notes accepted for purchase will be determined by multiplying each Holder's Tender by the applicable proration factor, and rounding the product down to the nearest DOP1,000 principal amount. Existing GDNs accepted for purchase will be determined by multiplying each Holders' Tender by the applicable proration factor, and rounding the product down to the nearest whole GDN. All Existing Notes validly tendered but not accepted as a result of proration or otherwise will be rejected and returned to Holders through the applicable clearing system. However, if the principal amount of Existing Notes that are not accepted and are returned to a Holder as a result of proration would result in less than the applicable Permitted Tender Amount being returned to such Holder, the Republic will either accept or reject all of such Holder's validly tendered Existing Notes of such series.

The Offer is not conditioned upon any minimum level of participation. The Republic will not be able to definitively determine whether the Offer is oversubscribed or what the effects of proration may be until after the Expiration Time has passed.

If proration of the tendered Existing Notes of any series is required, the Republic will announce the results of such proration as described in "*Announcement of Results; Announcement of Accepted Tenders.*" Holders may obtain such information from the Dealer Managers and may be able to obtain such information from their brokers.

Tender Procedures

General

Tenders for Existing Local Notes must be submitted through CEVALDOM. Tenders for Existing GDNs must be submitted through the applicable clearing system (DTC, Euroclear or Clearstream). Failure to deliver your Existing Notes on time may result in the cancellation of your Tender.

By submitting a Tender with respect to any series of Existing Notes and thereby offering to tender them pursuant to the Offer, you will be deemed to have made certain acknowledgments, representations, warranties and undertakings to the Republic, the Dealer Managers and the Tender and Information Agent as set forth under "*Holders' Representations, Warranties and Undertakings.*"

A defective tender of Existing Notes will not entitle the Holder thereof to the applicable Purchase Price and Accrued Interest unless the relevant defect is waived by the Republic. Any beneficial owner whose Existing Notes are registered in the name of a custodian, nominee or participant of CEVALDOM or DTC, as applicable, and who wishes to tender its Existing Notes should contact such custodian, nominee or participant promptly and instruct such custodian, nominee or participant to tender its Existing Notes on such beneficial owner's behalf through CEVALDOM, DTC, Euroclear or Clearstream, as applicable.

The Tender by a Holder of Existing Notes (and subsequent acceptance of such Tender by the Republic) pursuant to one of the procedures set forth below will constitute a binding agreement between such Holder and the Republic in accordance with the terms and subject to the conditions set forth in this Offer Document.

Each direct participant in CEVALDOM, DTC, Euroclear or Clearstream, by validly tendering the Existing Notes, will be deemed to have given the authority to the relevant clearing system to provide details concerning such direct participant's identity to the Tender and Information Agent.

The method of delivery of Existing Notes and all other required documents, including delivery through (i) CEVALDOM of any Tender instruction or (ii) DTC and any acceptance of an Agent's Message transmitted through ATOP or an Electronic Acceptance Instruction transmitted through Euroclear or Clearstream, is at the election and

risk of the person tendering Existing Notes and delivery will be deemed made only when actually received by the Republic or the Tender and Information Agent, as applicable.

There will be no letter of transmittal for the Offer.

Only registered Holders of Existing Notes are authorized to tender their Existing Notes pursuant to the Offer. Accordingly, to properly tender Existing Notes or cause Existing Notes to be tendered, the following procedures must be followed.

Tenders with Respect to Existing Local Notes Held in CEVALDOM

If you hold your Existing Local Notes through CEVALDOM, you must arrange for a direct participant in CEVALDOM to submit your Tenders to CEVALDOM either by (a) inputting their tendered Existing Local Notes directly through CEVALDOM's book-entry system or (ii) executing the Instruction Form attached hereto as Annex A and sending it by email to CEVALDOM at the following email address: servicioslegales@cevaldom.com. If you hold your Existing Notes through CEVALDOM, you may not submit a Tender directly.

Only a direct participant in CEVALDOM may submit a Tender instruction to CEVALDOM. The Republic expects that CEVALDOM will authorize participants that hold Existing Local Notes on behalf of beneficial owners of Existing Local Notes held through CEVALDOM to tender their Existing Local Notes as if they were Holders.

Upon receiving a Tender instruction, CEVALDOM will mark (*pignorar*) and block the corresponding position in the account of the CEVALDOM participant and notify the Republic of your Tender.

By submitting your Tenders through CEVALDOM, you will be deemed to have acknowledged that you have received and agree to be bound by the terms of the Offer (as set forth in this Offer Document) and that the Republic may enforce such agreement against you. In addition, you will be deemed to have agreed to:

- irrevocably instruct CEVALDOM to mark (*pignorar*) and block any attempt to transfer your Existing Local Notes on or prior to the Settlement Date, except as otherwise permitted by the terms of the Offer (as set forth in this Offer Document) in connection with the exercise of any withdrawal rights;
- irrevocably instruct CEVALDOM to debit your account on or about the Settlement Date in respect of all of your Existing Local Notes, or in respect of such lesser portion of your Existing Local Notes as are accepted for purchase by the Republic, unless previously withdrawn in accordance with the terms of the Offer (as set forth in this Offering Document); and
- irrevocably authorized to disclose, to the Republic, the identity of the participant account holder and account information,

subject in each case to the automatic withdrawal of the irrevocable instruction in the event that the Offer is terminated by the Republic.

You are responsible for informing yourself of these deadlines and for arranging the due and timely delivery of Tender instructions to CEVALDOM.

Tenders with Respect to Existing GDNs Held in DTC

If you hold your Existing GDNs through DTC, you must arrange for a direct participant in DTC to submit your Tenders to DTC through DTC's ATOP and follow the procedure for book-entry transfer set forth below. DTC has confirmed that the Offer is eligible for ATOP. Accordingly, a DTC participant whose name appears on a security position listing as the holder of the relevant Existing GDNs must electronically tender its Existing GDNs causing DTC to transfer the Existing GDNs in the participant's account to the Tender and Information Agent's ATOP account at DTC in accordance with DTC's ATOP procedures for such a transfer. DTC will then send an Agent's Message (as defined herein) to the Tender and Information Agent.

The term "Agent's Message" means a message, transmitted by DTC, received by the Tender and Information Agent and forming a part of a book-entry confirmation, which states that DTC has received an express acknowledgment from the tendering participant, which acknowledgment states that such participant has received and

agrees to be bound by the terms of the Offer (as set forth in this Offer Document) and that the Republic may enforce such agreement against such participant. Holders who intend to tender their Existing GDNs prior to the Expiration Time should note that they must allow sufficient time for completion of the ATOP procedures during the normal business hours of DTC on such date. Tenders not received by the Tender and Information Agent prior to the Expiration Time will be disregarded and of no effect.

Although transfer of the Existing GDNs to the Tender and Information Agent's ATOP account at DTC may be effected through book-entry at DTC, an Agent's Message must be transmitted by DTC and received by the Tender and Information Agent at or prior to the Expiration Time in order to validly tender your Existing GDNs pursuant to the Offer.

Tenders must be submitted through DTC's ATOP system in accordance with the deadlines and procedures established by DTC, and an Agent's Message with respect to your Tender must be received by the Tender and Information Agent at or prior to the Expiration Time.

Tenders with Respect to Existing GDNs Held in Euroclear or Clearstream

If you hold your Existing GDNs through Euroclear or Clearstream, you must arrange for a direct participant in Euroclear or Clearstream, as the case may be, to deliver your Tenders, which includes blocking instructions (as defined below), to Euroclear or Clearstream in accordance with the procedures and deadlines specified by Euroclear or Clearstream at or prior to the Expiration Time. Only a direct participant in Euroclear or Clearstream may submit an Electronic Acceptance Instruction to Euroclear or Clearstream.

"Blocking instructions" means:

- irrevocable instructions to block any attempt to transfer your Existing GDNs on or prior to the Settlement Date;
- irrevocable instructions to debit your account on or about the Settlement Date in respect of all of your Existing GDNs, or in respect of such lesser portion of your Existing GDNs as are accepted for purchase by the Republic, upon receipt of an instruction by the Tender and Information Agent, and
- an irrevocable authorization to disclose, to the Tender and Information Agent, the identity of the participant account holder and account information,

subject in each case to the automatic withdrawal of the irrevocable instruction in the event that the Offer is terminated by the Republic and your right to withdraw your Tender prior to the Expiration Time.

Your Tender, which includes your blocking instructions, must be delivered and received by Euroclear or Clearstream in accordance with the procedures established by them and on or prior to the deadlines established by each of those clearing systems. You are responsible for informing yourself of these deadlines and for arranging the due and timely delivery of blocking instructions to Euroclear or Clearstream.

Tenders with Respect to Existing Notes Held by Custodians

If you hold your Existing Notes through a custodian, you may not submit a Tender directly. You should contact that custodian to submit a Tender on your behalf.

Deadlines

You are responsible for arranging the timely delivery of your Tender pursuant to one of the procedures above.

None of the Republic, the Dealer Managers, the Tender and Information Agent or the GDN Depository will be responsible for the communication of Tenders by:

- holders of Existing Notes to the direct participant in CEVALDOM, DTC, Euroclear or Clearstream, as applicable, through which they hold Existing Notes; or
- holders of Existing Notes or the direct participant to the Tender and Information Agent, CEVALDOM, DTC, Euroclear or Clearstream.

If you hold Existing Notes through a broker, dealer, commercial bank or financial institution, you should consult with that institution as to whether it will charge any service fees.

Priority Allocation Code

Holders tendering Existing Local Notes through CEVALDOM may obtain a Priority Allocation Code from CEVALDOM. Holders tendering Existing GDNs may obtain a Priority Allocation Code by contacting either of the Dealer Managers, and should include their Priority Allocation Code in their ATOP or Electronic Acceptance Instruction.

Tendering Holders who wish to subscribe for New Local Notes (including in the form of new GDNs) should include their Priority Allocation Code when subscribing for New Local Notes in the Bloomberg auction system through which the Republic will receive indications of interest. A Priority Allocation Code is not required for a Holder to tender its Existing Notes, but if a tendering Holder wishes to subscribe for the New Local Notes, such Holder should obtain and quote a Priority Allocation Code in its firm bid submitted at the time the Republic markets the New Local Notes.

Irrevocability; Withdrawal Rights

Your Tenders will become irrevocable upon the expiration of the Offer. However, any Tender may be withdrawn or revised prior to the Expiration Time by withdrawing the Tender in accordance with the procedures established by, and within the respective deadlines of, CEVALDOM, DTC, Euroclear or Clearstream, as the case may be. If you have requested that a custodian submit a Tender on your behalf and you would like to withdraw or revise your Tender, you should contact that custodian and request it to withdraw or revise your Tender prior to the Expiration Time. You should be aware, however, that the custodian may impose earlier deadlines for withdrawing or revising a Tender in accordance with its procedures. If the Republic does not accept all Tenders for any reason pursuant to the terms and conditions of the Offer, any Tenders not so accepted shall automatically be deemed to be withdrawn. If as a result of the proration the Republic does not accept some or all of your Existing Notes tendered for cash, any Tenders not so accepted shall automatically be deemed to be withdrawn.

No Guaranteed Delivery

No guaranteed delivery procedures are being offered in connection with the Offer. As Holders are authorized to tender their Existing Local Notes through CEVALDOM and their Existing GDNs only through DTC, Euroclear or Clearstream, beneficial owners of Existing Notes that are held in the name of a custodian must contact such entity sufficiently in advance of the Expiration Time if they wish to tender their Existing Notes and be eligible to receive the applicable Purchase Price and Accrued Interest for such Existing Notes.

Acceptance of Tenders

The Republic will accept valid Tenders of series of Existing Notes for purchase in such amounts as the Republic shall determine pursuant to the terms and conditions of the Offer. See “—*Maximum Purchase Price; Proration.*” **Tenders that are accepted will be settled solely by the Republic on the Settlement Date, subject to the satisfaction or waiver by the Republic (in its sole discretion) of the terms and conditions of the Offer.** The Republic reserves the right, in its sole discretion, not to accept any Tenders for any reason. In addition, the Republic reserves the right, in its sole discretion, to modify the Purchase Price for any or all series of Existing Notes, or to terminate the Offer for any reason.

In all cases, the Republic will purchase Existing Notes accepted for purchase pursuant to the Offer only after timely receipt by (a) the Republic of a confirmation of satisfaction of CEVALDOM’s procedures set forth above under “—Tender Procedures—Tenders with Respect to Existing Local Notes Held in CEVALDOM,” or (b) the Tender and Information Agent of (i)(A) confirmation of satisfaction of DTC’s ATOP procedures set forth above under “—Tender Procedures—Tenders with Respect to Existing GDNs Held in DTC,” or (B) timely confirmation of the submission of valid Electronic Acceptance Instructions pursuant to the procedures of Euroclear or Clearstream set forth under “—Tender Procedures—Tenders with Respect to Existing GDNs Held in Euroclear or Clearstream” and (ii) any other documents required thereby.

For purposes of the Offer, the Republic will be deemed to have accepted validly tendered and validly delivered Existing Notes when, as and if the Republic gives oral or written notice thereof to the Tender and Information

Agent. Payment for Existing Notes accepted for purchase pursuant to the Offer will be made by the Republic depositing (or causing the deposit of) such payment with CEVALDOM, DTC, Euroclear or Clearstream, as applicable, which will act as agents for the tendering Holders for the purpose of receiving the applicable Purchase Price and Accrued Interest, and transmitting such Purchase Price and Accrued Interest, to such Holders. Under no circumstances will any additional amount be paid by the Republic or the Tender and Information Agent by reason of any delay in making such payment.

If the Tendered Aggregate Purchase Price would exceed the Maximum Purchase Price, then the Republic will, in its sole discretion, select one or more series of Existing Notes to be prorated on the basis of the same or different proration factors, so that the Tendered Aggregate Purchase Price accepted by the Republic equals or does not exceed the Maximum Purchase Price. See “—*Maximum Purchase Price; Proration.*”

If any tendered Existing Notes are not accepted for purchase or payment as a result of proration or because of an invalid tender or the occurrence or non-occurrence of certain other events set forth herein or otherwise, then such Existing Notes tendered will be credited to the account maintained at the relevant clearing system from which such Existing Notes were delivered promptly after the Expiration Time or the termination of the Offer.

No alternative, conditional or contingent tenders of Existing Notes will be accepted. A tendering Holder, by electronically transmitting its acceptance through CEVALDOM or ATOP or an Electronic Acceptance Instruction, as applicable, waives all rights to receive notice of acceptance of such Holder’s Existing Notes for purchase.

The Republic shall not be liable for payments to any Holder of Existing Notes validly tendered and accepted for purchase if such Holder fails to deliver such Existing Notes on or prior to the settlement of the Offer as described herein.

The Republic reserves the right, in its sole discretion, not to accept any Tenders for any reason.

Permitted Tender Amounts

Tenders must be in Permitted Tender Amounts. The Permitted Tender Amount for each series of Existing Local Notes is DOP100,000. The Permitted Tender Amount for each series of Existing GDNs is equal to one GDN. Each Existing GDN represents DOP100,000 nominal amount of the corresponding Existing Local Notes.

To avoid acceptance and purchases of Existing Notes in principal amounts other than Permitted Tender Amounts and to ensure that Existing Notes subject to proration are returned in Permitted Tender Amounts, if necessary, appropriate adjustments will be made downward to the nearest Permitted Tender Amount, with respect to each Tender accepted for purchase. Holders who tender less than all of their Existing Notes, must continue to hold Existing Notes in at least the applicable Permitted Tender Amount.

Settlement

Subject to the concurrent (or earlier) closing of the New Notes Offering and the other conditions set forth herein, the Republic will purchase validly tendered and accepted Existing Notes in such amounts as previously announced by the Republic, on the Settlement Date, which is expected to be Friday, June 11, 2021, subject to change without notice.

Settlement of tenders with Holders of Existing Local Notes will be in pesos.

Settlement of tenders with Holders of Existing GDNs will be in U.S. dollars.

The Republic will cancel Existing Notes purchased pursuant to the Offer promptly following the Settlement Date.

Failure to deliver Existing Notes on time may result in the cancellation of your Tender.

Payments for Existing Notes purchased pursuant to the Offer will be made in same day funds to the applicable clearing system. The amount of cash a Holder will receive for its tendered Existing Notes accepted for purchase will be rounded to the nearest cent (DOP0.01 or US\$0.01, as applicable). The determination by the Republic and/or the Dealer Managers of any calculation or quotation made with respect to the Offer shall be conclusive and binding on all Holders, absent manifest error.

Conditions to the Offer

The Republic reserves the right, in its sole discretion, not to accept any Tenders for any reason. The Offer is conditioned upon the concurrent (or earlier) closing of the New Notes Offering, including in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic. In addition, notwithstanding any other provisions of the Offer, the Offer is conditioned upon there not having been threatened, instituted or pending any action or proceeding before any court or governmental, regulatory or administrative body that (1) makes or seeks to make illegal the purchase of Existing Notes pursuant to such Offer; (2) would or might result in a delay in, or restrict, the ability of the Republic to purchase the Existing Notes or issue the New Local Notes; or (3) imposes or seeks to impose limitations on the ability of the Republic to issue and/or price the New Local Notes in an aggregate principal amount, with pricing and on terms and conditions acceptable to the Republic. Each of the foregoing conditions is for the sole benefit of the Republic and may only be satisfied or waived by the Republic, in whole or in part, at any time and from time to time, in its sole discretion. Any determination by the Republic concerning the conditions set forth above (including whether or not any such condition has been satisfied or waived, except as in the case of the termination of the dealer manager agreement relating to the Offer) will be final and binding upon all parties.

Market for the Existing Notes

The Republic will cancel the Existing Notes it acquires in the Offer following completion of the Offer. Accordingly, this transaction will reduce the aggregate principal amount of each series of Existing Notes acquired in the Offer that otherwise might trade in the market, which could adversely affect the liquidity and market value of the remaining Existing Notes of the affected series that the Republic does not acquire.

Communications

Information about the Offer will be published, to the extent provided in this Offer Document, by means of press releases to an international news service in accordance with applicable law.

Without limiting the manner in which such public announcement may be made, the Republic shall not have any obligation to publish, advertise or otherwise communicate such public announcement other than to news media in accordance with applicable law and by an announcement on the Offers Website run by the Tender and Information Agent (<https://www.gbsc-usa.com/dominican/>).

Holders may obtain information about the Offer by contacting the Dealer Managers or the Tender and Information Agent at the addresses and telephone numbers listed on the inside back cover of this Offer Document.

Certain Other Matters

Each proper acceptance of Existing Notes will constitute the binding agreement of the tendering Holder of such Existing Notes to deliver such Existing Notes at a clearing system as described in this Offer Document and to settle the Tender of such Existing Notes on the Settlement Date. The acceptance of the Offer by a Holder with respect to any Existing Notes will constitute the agreement by such Holder to deliver good and marketable title to such Existing Notes on the Settlement Date, free and clear of all liens, charges, claims, encumbrances, interests and restrictions of any kind.

Payment for Existing Notes accepted for purchase pursuant to the Offer will in all cases be made only after timely receipt by (i) the Republic of a confirmation of Tender in the case of a tender through CEVALDOM, or (ii) the Tender and Information Agent of (a) in the case of a tender through DTC, a timely Book-Entry Confirmation with respect to such Existing Notes, or in the case of a tender through ATOP, an Agent's Message, or (b) in the case of a tender through Euroclear or Clearstream, an Electronic Acceptance Instruction, which includes its Note Instructions. Under no circumstances will interest be paid on the Purchase Price or Accrued Interest as a result of any delay in making such payments.

All questions as to the validity, form and eligibility (including time of receipt), any acceptance of the Offer and any sale pursuant thereto will be determined by the Republic, in its sole discretion, which determination shall be final and binding. The Republic reserves the absolute right, in its sole discretion, to reject any and all Tenders not in proper form or for which the corresponding agreement to purchase, in its opinion, would be unlawful. The Republic also reserves the absolute right in its sole discretion to waive any defects, irregularities or conditions in acceptances and settlement with regard to any particular Existing Notes.

None of the Republic, the Dealer Managers, the Tender and Information Agent, the GDN Depository or any other person will be under any duty to give notice to accepting or selling Holders of Existing Notes of any defects or irregularities in acceptances or sales, nor shall any of them incur any liability for failure to give such notice.

The calculation of the applicable Purchase Price and Accrued Interest and any other calculation or quotation made by the Republic and/or the Dealer Managers with respect to the Offer shall be conclusive and binding on all Holders, absent manifest error. The Republic's interpretation of the terms and conditions of the Offer will be final and binding.

The Republic reserves the right at any time or from time to time, following completion or cancellation of the Offer, to purchase Existing Notes (including, without limitation, those tendered pursuant to the Offer but not accepted), in the open market, in privately negotiated transactions, through subsequent tender offers or otherwise, in each case, on terms and subject to the conditions that may be more or less favorable to the Holders of such Existing Notes than those contemplated by the Offer. The making of any such new offers and the issuance of any new invitation will depend on various factors, including interest rates prevailing at such time and the principal amount of Existing Notes, if any, retired pursuant to the Offer.

TAXATION

General

A Tender of Existing Notes pursuant to this Offer Document that is accepted by the Republic may be a taxable transaction under the laws applicable to a holder of Existing Notes. You should consult your own tax advisors to determine the particular tax consequences that apply to you in respect of the sale of Existing Notes.

Dominican Tax Consequences Associated with the Offer

At the date of this Offer Document, there is no Dominican income tax, withholding tax, capital gains tax, capital transfer tax, estate duty or inheritance tax payable by holders (other than holders ordinarily resident in the Republic) in respect of their investment in, or sale of, the Existing Notes.

Under Dominican law, there are no stamp or documentary taxes, duties or similar taxes or charges payable in connection with the Offer.

U.S. Federal Income Taxation

The following is a summary of certain U.S. federal income tax consequences of the Offer that may be relevant to a U.S. Holder (as defined herein) of an Existing Note. This summary is based on provisions of the Internal Revenue Code of 1986, as amended (the “Code”), applicable Treasury regulations, rulings and judicial decisions now in effect, all of which are subject to change, possibly with retroactive effect. This summary deals only with U.S. Holders of Existing Notes that hold Existing Notes as capital assets, and does not address particular tax considerations that may be applicable to holders that are subject to special tax rules, such as banks or other financial institutions, tax-exempt entities, insurance companies, regulated investment companies, real estate investment trusts, dealers in securities or currencies, traders in securities electing to use the mark-to-market method of accounting, persons that hold Existing Notes as a position in a “straddle” or conversion transaction, or as part of a “synthetic security” or other integrated financial transaction, entities or arrangements taxed as partnerships or the partners therein, persons subject to the alternative minimum tax, non-resident alien individuals present in the United States for more than 182 days in a taxable year, U.S. expatriates or persons that have a “functional currency” other than the U.S. dollar.

This summary addresses only U.S. federal income tax consequences, and does not address consequences arising under state, local, foreign, U.S. federal estate, gift or other tax laws or the Medicare tax on net investment income. Holders of Existing Notes should consult their own tax advisors in determining the tax consequences to them of the Offer under such tax laws, as well as the application to their particular situation of the U.S. federal income tax considerations discussed below.

As used herein, a “U.S. Holder” is a beneficial owner of an Existing Note that is an individual citizen or resident of the United States or a U.S. domestic corporation or that otherwise is subject to U.S. federal income taxation on a net income basis in respect of an Existing Note.

THE SUMMARY OF U.S. FEDERAL INCOME TAX CONSEQUENCES SET OUT BELOW IS FOR GENERAL INFORMATION ONLY. EACH HOLDER OF EXISTING NOTES IS URGED TO CONSULT ITS TAX ADVISORS REGARDING THE POTENTIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE SALE OF THE EXISTING NOTES IF SUCH HOLDER TENDERS EXISTING NOTES IN THE OFFER, INCLUDING THE EXTENT TO WHICH ANY U.S. HOLDER’S INDIVIDUAL CIRCUMSTANCES MAY AFFECT THE GENERAL RESULTS OUTLINED HEREIN, AS WELL AS OTHER UNITED STATES FEDERAL TAX CONSIDERATIONS AND THE CONSEQUENCES OF THE TAX LAWS OF ANY FOREIGN, STATE OR LOCAL TAXING JURISDICTION.

Sales of Existing Notes

Sales of Existing Notes pursuant to the Offer will be taxable transactions for U.S. federal income tax purposes.

Subject to the discussion under “Possible Alternative Treatment of the Sales of Existing Notes,” upon the sale of an Existing Note, you will recognize gain or loss in an amount equal to the difference between the amount of cash you receive (which will be the U.S. dollar amount as described below) (other than amounts received attributable

to Accrued Interest, which will be taxed as ordinary income to the extent not previously included in income) and your adjusted tax basis in the Existing Note at the time of sale. Your adjusted tax basis in an Existing Note generally will equal the amount you paid for the Existing Note, (i) reduced (but not below zero) by any premium you have previously amortized and any payments previously received on the Existing Note other than payments of stated interest and (ii) increased by the amount of any market discount that you have elected to include in income currently as it accrues (as described below). You should consult your tax advisor regarding the determination of your adjusted tax basis in an Existing Local Note, in particular with respect to the conversion of pesos into U.S. dollars in determining your initial cost. Except as discussed below with respect to market discount or foreign currency gain or loss, any gain or loss you recognize will be capital gain or loss and will be long-term capital gain or loss if you have held the Existing Note for more than one year on the date of the sale. Long-term capital gains of non-corporate U.S. Holders (including individuals) are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

If you acquired the Existing Notes with market discount, any gain you recognize pursuant to the sale of the Existing Notes will be treated as ordinary income to the extent of the portion of the market discount that has accrued while you held the Existing Notes, unless you have elected to include market discount in income currently as it accrues. In general, market discount is the excess, if any, of the principal amount of an Existing Note over your tax basis therein at the time of the acquisition (other than an acquisition at original issuance), unless the amount of the excess is less than a specified *de minimis* amount, in which case market discount is considered to be zero.

Gain or loss recognized pursuant to the Offer generally will be treated as income or loss from U.S. sources for U.S. foreign tax credit purposes (except that, although the matter is not free from doubt, any gain treated as ordinary income pursuant to the market discount rules should generally be treated as foreign source income). Accrued Interest that is paid in connection with the Offer will constitute foreign source income, and for U.S. foreign tax credit purposes such income should generally constitute “passive category income.” The rules governing the U.S. foreign tax credit are complex, and each U.S. Holder is urged to consult its own tax advisor regarding the application of the rules to its particular circumstances.

If you recognize a loss upon the sale of an Existing Note and such loss is above certain thresholds, you may be required to file a disclosure statement with the Internal Revenue Service (the “IRS”). You should consult your tax advisor regarding this reporting obligation.

Applicable U.S. Treasury regulations provide rules for determining the “spot rate” used to convert foreign currency into U.S. dollars with respect to the purchase of foreign currency denominated debt instruments and payments received on, or with respect to the disposition of, foreign currency denominated debt instruments. The spot rate under these U.S. Treasury regulations may differ from the actual rate (i.e., the Representative Market Rate at the Expiration Time) used to convert pesos into U.S. dollars with respect to the purchase of Existing GDNs pursuant to the Offer. While not free from doubt, we believe that it would be reasonable to treat such actual rate as the relevant exchange rate (i.e., the “spot rate”) with respect to amounts received by you with respect to the Existing GDNs (for both the Purchase Price and Accrued Interest), and the remainder of this discussion assumes such treatment. You should consult your own tax advisor as to the consequences of a different interpretation of the spot rate.

Based on the discussion above, in determining your gain or loss upon the sale of an Existing GDN, the amount realized for U.S. federal income tax purposes will be the U.S. dollars actually received.

In determining your gain or loss upon the sale of an Existing Local Note, the amount of cash received generally will be a U.S. dollar amount based on the peso/U.S. dollar exchange rate on the date of sale. If, however, the Existing Local Note is one of a series that is treated as traded on an established securities market for U.S. federal income tax purposes, a cash method U.S. Holder (or, if it elects, an accrual method U.S. Holder) will use the peso/U.S. dollar exchange rate on the settlement date of the sale. If an accrual method taxpayer makes the election described above, such election must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS. If the Existing Local Note is not treated as traded on an established securities market (or if the Existing Local Note is treated as traded on an established securities market and an accrual method U.S. Holder does not make the election described above), an accrual method U.S. Holder will recognize foreign currency gain or loss (taxable as ordinary income or loss from U.S. sources) based on the difference between the peso/U.S. dollar exchange rates on the date of sale and the settlement date.

Any gain or loss recognized upon the sale of an Existing Note generally will be treated as ordinary income or loss from U.S. sources to the extent that the gain or loss is attributable to changes in the peso/U.S. dollar exchange rate during the period in which you held the Existing Note. This foreign currency gain or loss will not be treated as an

adjustment to interest income received on the Existing Note. The amount of foreign currency gain or loss recognized (with respect to both principal and interest) will be limited to the amount of overall gain or loss realized on the sale of the Existing Note. In addition, if you acquired an Existing Note with market discount and elected to include market discount in income currently as it accrues, you may also recognize foreign currency gain or loss (taxable as ordinary income or loss from U.S. sources) attributable to changes in the peso/U.S. dollar exchange rate between the time of accrual of the market discount and the sale of the Existing Note.

Accrued Interest

If you are a cash method U.S. Holder, amounts received pursuant to the Offer that are attributable to Accrued Interest on an Existing Local Note will be included in your income in a U.S. dollar amount based on the peso/U.S. dollar exchange rate on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars, and you will not recognize foreign currency gain or loss on the receipt of such amounts. Based on the discussion above, if you are a cash method U.S. Holder, amounts received pursuant to the Offer that are attributable to Accrued Interest on an Existing GDN will be included in your income in an amount equal to the U.S. dollars actually received.

If you are an accrual method U.S. Holder, the amount of interest income recognized with respect to Accrued Interest on an Existing Note may be determined in accordance with either of two methods. Under the first method, you will be required to include in income the U.S. dollar value of the interest that has accrued during the taxable year, determined by translating such interest at the average rate of exchange for the period or periods (or portions thereof) in such year during which such interest accrued. Under the second method, you may elect to translate interest income at the spot rate of exchange on the last day of the accrual period (or the last day of the taxable year if the accrual period straddles your taxable year) or the date the interest payment is received if such date is within five business days of the end of the accrual period. Based on the discussion above, if you use the second method for an Existing GDN and the Accrued Interest is received within five business days of the end of the accrual period, you may be able to translate the interest income based on the Representative Market Rate at the Expiration Time rather than the peso/U.S. dollar exchange rate on the date the Accrued Interest is received.

If you are an accrual method U.S. Holder that tenders an Existing Note, you may also recognize foreign currency gain or loss based on the difference between the U.S. dollar value of the Accrued Interest you receive (as discussed below) and the U.S. dollar value of the income previously accrued with respect to such payment (as determined above). This foreign currency gain or loss generally will be treated as ordinary income or loss from U.S. sources but will not be treated as an adjustment to interest income received on the Existing Note. For an Existing Local Note, the U.S. dollar value of the Accrued Interest you receive will be based on the peso/U.S. dollar exchange rate on the date the Accrued Interest is received. Based on the discussion above, for an Existing GDN, the U.S. dollar value of the Accrued Interest you receive will be an amount equal to the U.S. dollars actually received.

Possible Alternative Treatment of the Sales of Existing Notes

If you sell Existing Notes pursuant to the Offer and purchase New Local Notes pursuant to the New Notes Offering, your sale of Existing Notes pursuant to the Offer and your subsequent purchase of New Local Notes pursuant to the New Notes Offering may be characterized as an exchange for U.S. federal income tax purposes. Although we do not believe that any such characterization should apply, no assurance can be given in this regard and any such characterization, if successfully asserted, could change the consequences described above and affect the treatment of the disposition of the Existing Notes pursuant to the Offer. If you sell Existing Notes pursuant to the Offer and purchase New Local Notes pursuant to the New Notes Offering, you should consult your tax advisor regarding the consequences of such sale and purchase.

Information Reporting and Backup Withholding

You generally will be subject to information reporting and backup withholding with respect to payments made pursuant to the Offer unless: (i) you are an exempt recipient and demonstrate this fact or (ii) in the case of backup withholding, you provide a correct taxpayer identification number, certify as to no loss of exemption from backup withholding and otherwise comply with applicable requirements of the backup withholding rules. Backup withholding is not an additional tax and the amount of any backup withholding will be allowed as a credit against your U.S. federal income tax liability and may entitle you to a refund, provided that the required information is furnished to the IRS in a timely manner. You should consult your tax advisor about these rules, including the procedures for establishing an exemption for backup withholding.

HOLDERS' REPRESENTATIONS, WARRANTIES AND UNDERTAKINGS

By tendering Existing Notes, each Holder shall be deemed to agree with, and acknowledge, represent, warrant and undertake (on behalf of itself and of any person for whom it is acting) to the Republic, the Dealer Managers and the Tender and Information Agent that, as of the time it tenders its Existing Notes and on each of the Expiration Time and Settlement Date, as set forth below. If any Holder of such Existing Notes or the direct participant through which a Holder tenders its Existing Notes is unable to give these acknowledgements, agreements, representations, warranties and undertakings, such Holder or direct participant is not permitted to participate in the Offer and, if it has taken any steps to do so, should contact the Tender and Information Agent immediately.

- (1) It has received and reviewed this Offer Document and understood and accepted the terms and conditions of the Offer and distribution restrictions, all as described in this Offer Document.
- (2) It understands that the tender of Existing Notes pursuant to any of the procedures set forth in this Offer Document will constitute its acceptance of the terms and conditions of the Offer, that only the Republic will be liable for the payment of the applicable Purchase Price and Accrued Interest for Existing Notes validly tendered and accepted subject to the terms and conditions of the Offer.
- (3) It is assuming all the risks inherent in participating in the Offer, and has undertaken all the appropriate analysis of the implications of the Offer, without reliance on the Republic, the Dealer Managers, the Tender and Information Agent or any of their respective representatives, directors or employees.

- (5) It has full power and authority to accept the Offer and tender, sell, assign and transfer the Existing Notes tendered, and that, if such Existing Notes are accepted for purchase then (i) on the Settlement Date, it will deliver good and marketable title thereto, and together with all rights attached, free and clear of all liens, charges, claims, interests, rights of third parties, encumbrances and restrictions of any kind, and such Existing Notes will not be subject to any adverse claim or right; and (ii) it will, upon request, execute and deliver any additional documents and/or do such other things deemed by the Dealer Managers or by the Republic to be necessary or desirable to complete the sale, assignment, transfer, and/or cancellation of the Existing Notes tendered or to evidence such power and authority.
- (6) All authority conferred or agreed to be conferred pursuant to its acknowledgements, agreements, representations, warranties, undertakings and directions, and all of its obligations shall be binding upon its successors, assigns, heirs, executors, trustees in bankruptcy and legal representatives, and shall not be affected by, and shall survive, its death or incapacity.

- (8) It understands that the Republic may, at its sole discretion, extend, re-open, amend or waive any condition of or terminate the Offer at any time, and that in the event of termination of the Offer, the relevant Existing Notes will be returned to the Holder.
- (9) None of the Republic, the Dealer Managers, the Tender and Information Agent, the GDN Depository or any of their respective representatives, directors or employees, has given it any information with respect to the Offer save as expressly set out in this Offer Document nor has any of them made any recommendation to it as to whether it should tender its Existing Notes pursuant to the Offer, and it

has made its own decision with regard to tendering its Existing Notes pursuant to the Offer based on any legal, tax or financial advice it has deemed necessary to seek.

- (10) Other than as expressly stated in this Offer Document, no information has been provided to it by the Republic, the Dealer Managers, the Tender and Information Agent, the GDN Depository or any of their respective representatives, directors or employees, with regard to the tax consequences for Holders of Existing Notes arising from any Existing Notes purchased pursuant to the Offer and the receipt of any cash payment, and it acknowledges that it is solely liable for any taxes and similar or related payments imposed on it under the laws of any applicable jurisdiction as a result of its participation in the Offer or in relation to the New Local Notes (other than transfer taxes with respect to the purchase of any Existing Notes) and agrees that it does not and will not have any right of recourse (whether by way of reimbursement, indemnity or otherwise) against the Republic, the Dealer Managers, the Tender and Information Agent, the GDN Depository, any of their respective directors or employees or any other person in respect of such taxes and payments.
- (11) It understands that validly tendered Existing Notes (or defectively tendered Existing Notes with respect to which the Republic has waived, or has caused to be waived, such defect) will be deemed to have been accepted by the Republic if, as and when the Republic gives oral or written notice thereof to the Tender and Information Agent.
- (12) It is not a person to whom it is unlawful to make an Offer pursuant to this Offer Document, it has not distributed or forwarded this Offer Document or any other documents or materials relating to the Offer to any such person, and it has complied with all laws and regulations applicable to it for the purposes of its participation in the Offer.
- (13) It shall indemnify the Republic, the Dealer Managers, the Tender and Information Agent and the GDN Depository against all and any losses, costs, claims, liabilities, expenses, charges, actions or demands which any of them may incur or which may be made against any of them as a result of any breach of any of the terms of, or any of the representations, warranties and/or undertakings given pursuant to, the Offer (including any acceptance thereof) by any such Holder.
- (14) It agrees that Accrued Interest to be paid on the Settlement Date as part of the Purchase Price and Accrued Interest pursuant to the Offer shall be paid on such Settlement Date and in accordance with the terms set forth in this Offer Document.

DEALER MANAGERS, TENDER AND INFORMATION AGENT AND GDN DEPOSITARY

The Republic has entered into a dealer manager agreement with Citigroup Global Markets Inc. and J.P. Morgan Securities LLC to act as Dealer Managers for the Offer. Pursuant to the dealer manager agreement, the Republic has:

- retained the Dealer Managers to act, directly or through affiliates, as the dealer managers in connection with the Offer;
- agreed to pay for certain expenses in connection with the Offer; and
- agreed to indemnify the Dealer Managers against certain liabilities and expenses in connection with the Offer, including liabilities under the Securities Act.

The dealer manager agreement contains various other representations, warranties, covenants and conditions customary for agreements of this sort. Global Bondholder Services Corporation will act as Tender and Information Agent in connection with the Offer to purchase Existing GDNs.
